

NAME: \_\_\_\_\_

# Activity One

## Mapping North America

Color and name all 50 states, 10 provinces and 3 territories on the map of North America.

NAME: \_\_\_\_\_

# Activity Two

## The Perfect School

Imagine you are a designer and create a map of the 'perfect' school. What type of things would you include? Perhaps a skate park or swimming pool? It is completely up to you.

Be sure to include a legend, symbols, compass rose and a color code. Draw your perfect school in the grid below.

NAME: \_\_\_\_\_

# Activity Three

## Route Around the House

Draw a map of your home in the space provided and color your route around your house: from the kitchen to your bedroom; from the bedroom to the bathroom; and from the bathroom to outside.

Then, write down your route using the cardinal and intermediate directions.

To get from the kitchen to my bedroom: \_\_\_\_\_

# Activity Four

## Battleship Game

Make your own battleship game. Photocopy the 10 by 10 grid below. Using one of the 10 by 10 grids, hide a 3-space battleship and a 4-space battleship. Your grid will need numbers at the top from left to right and letters down the bottom from top to bottom. Get together with a classmate and take turns guessing where each others ships are hidden by saying one number and letter combination. Use the other 10 by 10 grid to plot your hits and misses.

# Activity Six

## A Trip Around the World

Plan a trip around the world by plotting a route on the map of the world. Draw a line from a starting point (Your state/province) to the next location you want to visit. Write down the route of your trip on a separate piece of paper to share with the class.
