The last chapter explains that you must create a life plan to change your current reality. The first step in creating a life plan is to make a vision. A **vision** is the big picture of what you want your life to look like. This can be your everyday life. It could also be your hopes for the future. This is different from your long-term goals. **Goals** are individual things you want to reach. Your vision is the "why" that explains your goals.

A life vision is made up of **components**. These are: relationships, career, community involvement, spiritual practice, and health & fitness. A successful life vision will balance all of these equally.

### Roles of Your Vision

- 1. **Motivation:** A big vision will keep you excited.
- 2. **Direction:** Make life decisions that will realize your vision.
- 3. **Action:** Act like the person you aim to be.

Dong has just graduated from college. He is looking for a job at a law firm. He is hoping to rise through the ranks to become partner one day. He wants to be able to retire on a tropical island.
