Making Inferences Organizer

Thomas Edison **was a great inventor** and a very smart man. But when he was a boy, his teachers **thought he was a slow learner**. It took him a long time to figure out the answers to questions. What his teachers did not know was that Thomas was always **trying to figure out how things worked!** No matter how much trouble he got into as a boy, Thomas **kept on asking questions**. When he grew up, everyone called him a genius!
