

Drag the correct word to its definition below.

organized

atmosphere

routine

a) A system or ordered procedure.

unorganized

b) To be in disarray or a confusing state.

c) The main mood or emotional tone.

d) To be orderly or effective.

Critical thinkers have a special place to study and work at home. It doesn't have to be a whole room, a desk or table will do. The place needs to have a good light source and a quiet **atmosphere**. You should be ready to think when you go to your special study area.

Critical thinkers need a system to keep track of important papers. Many students use a three ring binder with special folders in it. In this binder you can keep your homework sheets, notes that need to be signed, and other important material that you need to save.
