

Add the following.

a)  +  =

b)  +  =

c)  +  =

1 2 3 4 5 6 7 8 9 0

Reset

ES

Addition is to add the values of two or more numbers to get one number. For example, add the number of apples below.

 touch

Subtraction is to take away one number from another number to get a new number. For example, subtract the number of oranges below.

**orange + orange + orange + orange + orange
- orange - orange**

= 3 total oranges
