

Numbers can be ordered as **greater than**, **less than** or **equal to** another number. To do this, you must first know the value of each number being described. Then, you must order the numbers using the following symbols.

$>$  touch

$<$

$=$

1 2 3 4 5 6 7 8

Choose more than ($>$),
less than ($<$) or equal to ($=$)
to describe the numbers
below.

more than $>$
 $<$ less than
equal to $=$

a) 12 11

b) 7 18

c) 31 31

a) 12 is more than ($>$) 11

b) 7 is less than ($<$) 18

c) 31 is equal to ($=$) 31

$>$

$=$

$<$

Choose more than ($>$), less than ($<$) or equal to ($=$) to describe the relationship between the following numbers.

17 14

 
1/6
