

Tally charts can then be used to describe and compare data. For example, look at the tally chart below and then answer the following questions.

roses	
daisies	
sunflowers	
tulips	/

Which flower was spotted the most?

How many times were tulips spotted?

Samantha asked her classmates what their favorite colors are. The tally chart to the right shows the answers.

How many classmates chose brown or orange?

red	///
blue	//
green	###
brown	/
pink	///
purple	### ///
orange	### /
