

Adding and subtracting **Decimals** is similar to adding and subtracting whole numbers. To **Add** decimals, first position the numbers one underneath another, lining up the decimal points.

touch  **6.2 + 3.1**

Jeff buys a chilidog at the baseball game. The chilidog costs \$3.50 but Jeff decides to add a few items:

(touch the image to enlarge)

- onions and relish \$0.25
- mushrooms and olives \$0.35
- hot peppers \$0.10

What is the total cost of his chilidog?
