Are the shapes similar or congruent?

a)

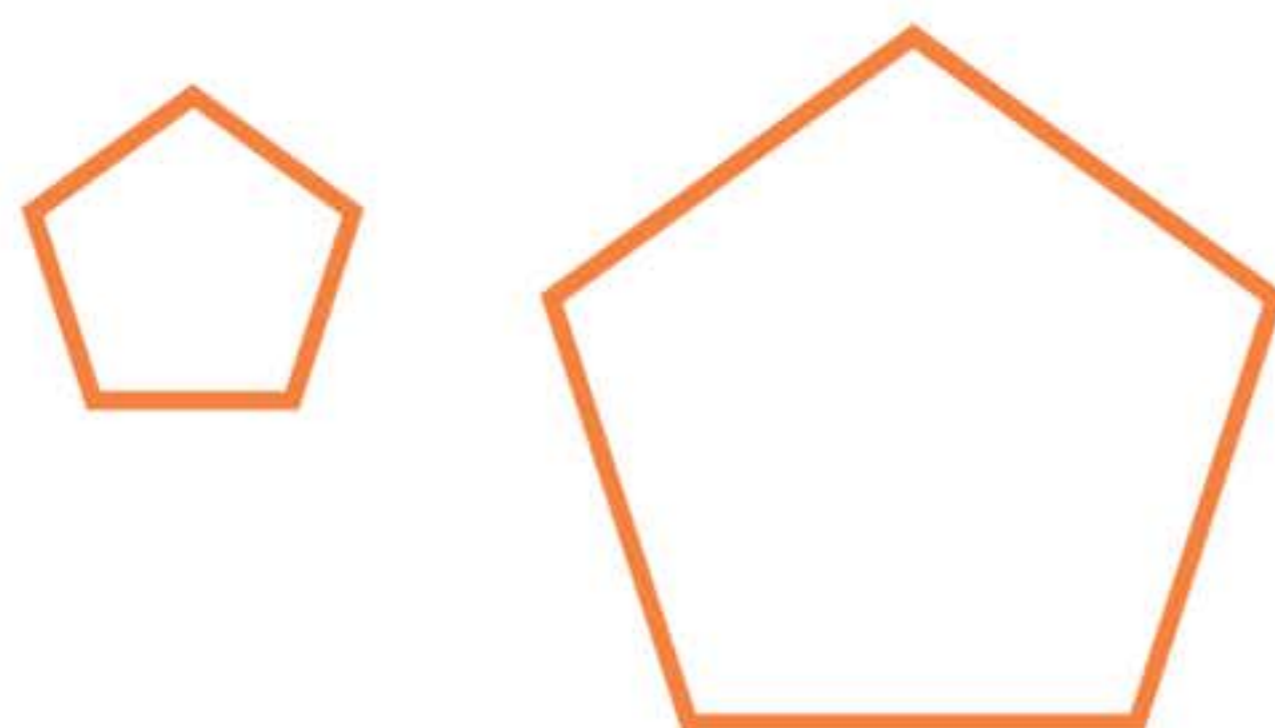

SIMILAR / CONGRUENT

b)

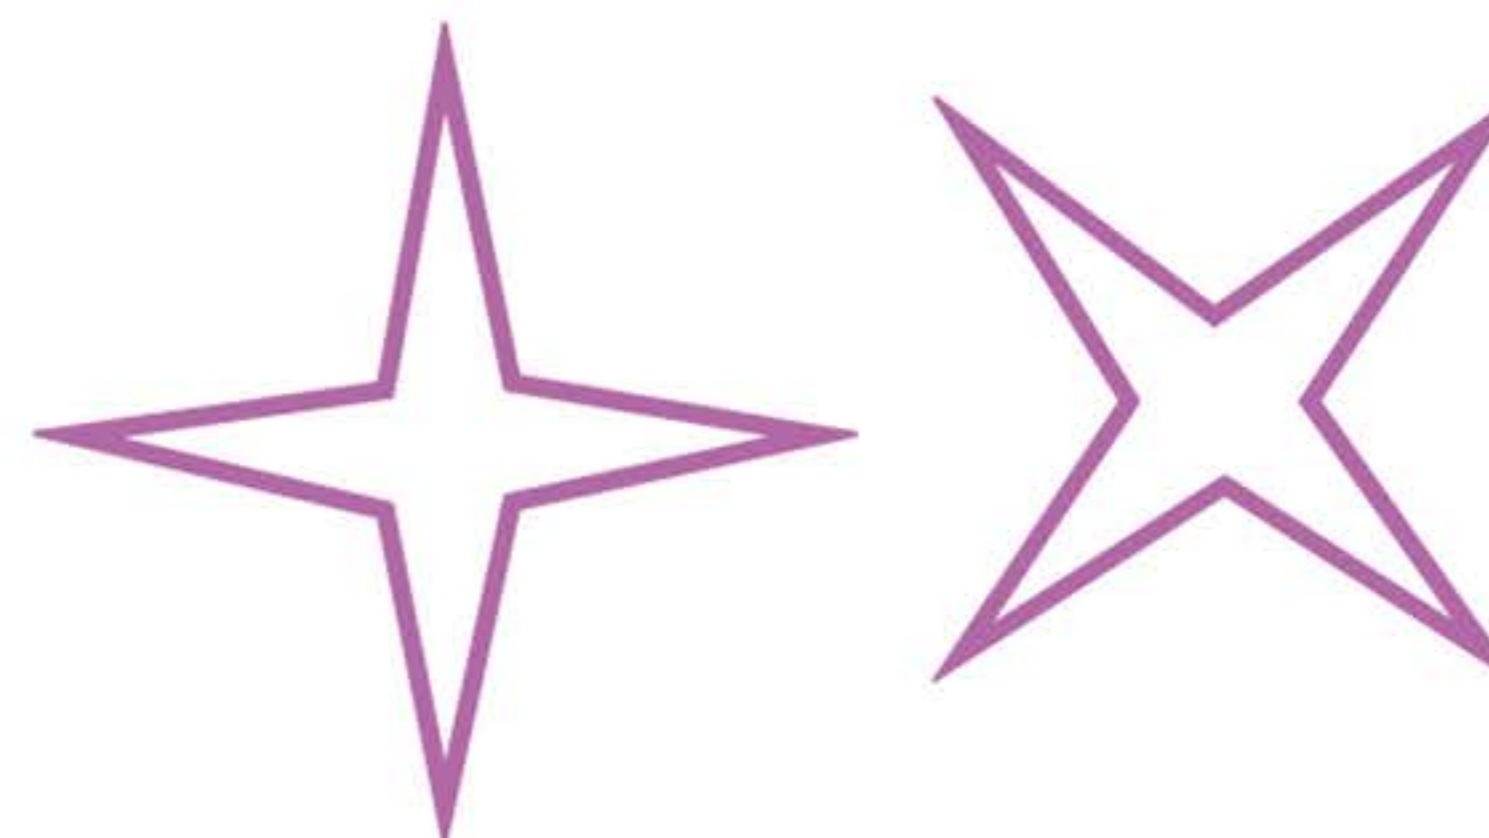

SIMILAR / CONGRUENT

c)

SIMILAR / CONGRUENT

d)

SIMILAR / CONGRUENT

Reset

Transformations are a change in position or size of a shape or object. A shape or object can be transformed in four different ways: turning, flipping, sliding and resizing. Touch an object below to transform it.

turn it

flip it

slide it

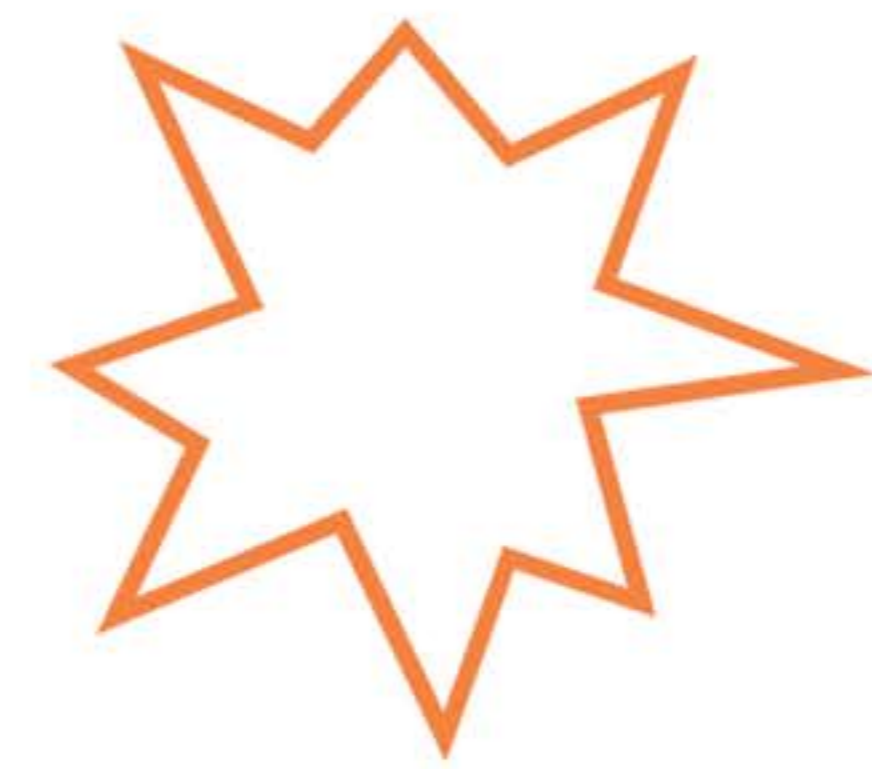

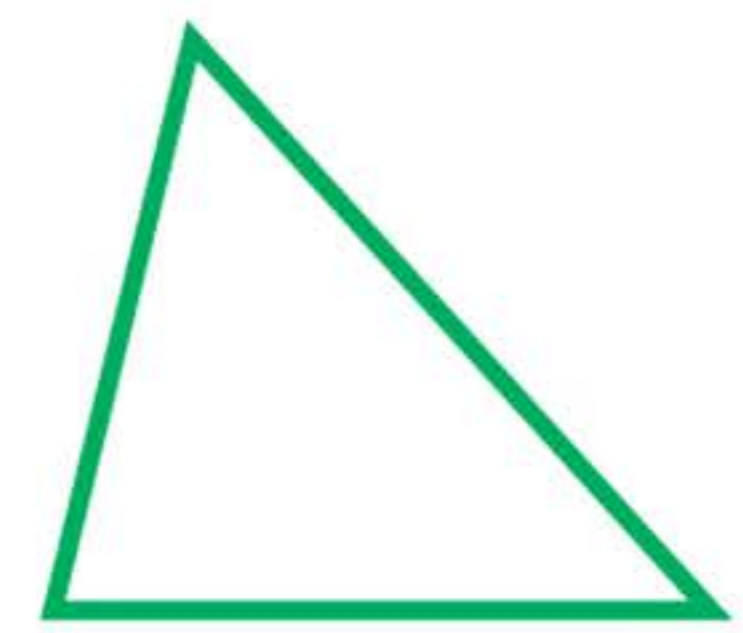

touch

resize it

Symmetry is when a shape or object can be folded in half, either horizontally, vertically, or diagonally, and be a mirror image of the other half. Touch the symmetrical shapes or objects below.
