ES

1 **2**

Mean, **Median** and **Mode** tell you important information from a set of data.

The **Range** is the difference between the largest and smallest numbers in a set of data.

The **Mean** is the average we're all used to. To find the mean, add up all the numbers in a set of data and divide the total by the amount of numbers.
touch ➡️

12 + 5 + 32   16   5

= 17
