

Data Analysis & Probability Memory Match Game

Instructions

Close X

Ten (10) matching pairs of data analysis and probability questions are hidden in the card game.

- Solve the hidden data analysis and probability questions by matching the question with its answer.
- Touch the card to reveal a different question or answer, then find its matching question or answer.
- Categories include: theoretical probability, mean, median, mode, pictographs, circle graphs, bar graphs, scatter plots, line plots, line graphs, coordinates and grids.
- Use the Reset button to start with all the cards hidden.
- Use the Mix button to shuffle the cards around.
