

ES

 **Explore Online:**

Find your hometown. In the Status Bar at the bottom of the screen, you will see a set of numbers. They show the coordinates of your hometown, then the elevation. What do you notice about the elevation numbers as you move your mouse from the green to brown areas?

 **Explore Offline:**

Find and circle an example of steep elevation, gradual elevation, sea level, forested area, and desert area on the provided topographic map. What do you notice about the features you circled?
