

Teacher Guide

Our resource has been created for ease of use by both **TEACHERS** and **STUDENTS** alike.

Introduction

The NCTM content standards have been used in the creation of the assignments in this booklet. This method promotes the idea that it is beneficial to learn through practical, applicable, real-world examples. Many of the drill sheets are organized around a central problem taken from real-life experiences of the students. The pages of this booklet contain a variety in terms of levels of difficulty and content so as to provide students with a variety of different opportunities. Included are questions involving place value, fractions, percent, decimals, multiplication and division. Visual models are included to assist visual learners. Teachers may also choose to use mathematics manipulatives along with the exercises included in the book to help address the needs of kinesthetic learners.

Contained in this booklet are 11 Timed Drill Sheets and 6 Warm-Up Drill Sheets, featuring real-life problem-solving opportunities, and 3 review sheets for grades 3-5. Also, there are 3 overheads and 6 additional worksheets which can be accessed on the publisher's website.

The NCTM Content Standards Assessment Rubric (page 4) is a useful tool for evaluating students' work in many of the activities in our resource. The **Reviews** (pages 24-26) are divided by grade and can be used for a follow-up review or assessment at the completion of the unit.

PICTURE CUES

Our resource contains three main types of pages, each with a different purpose and use. A **Picture Cue** at the top of each page shows, at a glance, what the page is for.

Teacher Guide

* Information and tools for the teacher

Student Handout

* Reproducible drill sheets

Easy Marking™ Answer Key

* Answers for student activities

Timed Drill Stopwatch

* Write the amount of time for students to complete the timed drill sheet in the stopwatch. Recommended times are given on the contents page.

How Is Our Resource Organized?

STUDENT HANDOUTS

Reproducible **drill sheets** make up the majority of our resource.

The **drill sheets** contain challenging problem-solving tasks in drill form, many centered around 'real-world' ideas or problems, which push the boundaries of critical thought and demonstrate to students why mathematics is important and applicable in the real world. It is not expected that all activities will be used, but are offered for variety and flexibility in teaching and assessment. Many of the drill sheet problems offer space for reflection, and opportunity for the appropriate use of technology, as encouraged by the NCTM's *Principles & Standards for School Mathematics*.

The **drill sheets** workbook can be used in correlation with the separate **task sheets** workbook that matches with this particular grade and subject.

EASY MARKING™ ANSWER KEY

Marking students' worksheets is fast and easy with our **Answer Key**. Answers are listed in columns – just line up the column with its corresponding worksheet, as shown, and see how every question matches up with its answer!

Every question matches up with its answer!

NAME: _____

7a) Add and subtract the following.

i) \$ 6.72
+ 4.12

ii) \$19.35
- 8.17

iii) \$ 126.89
+ 259.50

iv) \$75.35
- 26.44

v) \$ 91.27
- 32.76

vi) \$ 164.11
+ 220.98

b) How much money do the following coins represent?

i)  _____

ii)  _____

c) Multiply the following.

i) \$ 17
× 4

ii) \$ 21.25
× 6

iii) \$ 104.01
× 15

Review C

a) Write 36582 using words: _____

b) What is an equivalent fraction of the following.

i) $3/12$ _____

ii) $7/21$ _____

iii) $10/100$ _____

c) Use $>$, $<$, or $=$ to compare the pairs of decimals below.

i) 0.73 0.073

ii) 42.61 42.161

iii) 01.21 10.20

d) What is the place value of the underlined digits?

i) $7921.\underline{7}80$ _____

ii) $39\underline{0}054$ _____

e) Solve the following.

i) $14 + 3(5 - 3)^2 =$

ii) $(5 + 12 + 7 - 12) \div 6 =$

f) Write the expanded form for each of the following numbers.

i) $8529 =$ _____

ii) $42905 =$ _____

g) Find the value of each percent.

i) 25% of 40 _____

ii) 75% of 120 _____

SAMPLE

Percents, Hundreds Chart

a) What is the correct way to write the number _____ in words?

b) Write the equivalent fractions of:

i) _____ \rightarrow _____ ii) _____ \rightarrow _____ iii) _____ \rightarrow _____

c) Find the value of each percent.

i) 25 % of _____ = _____ ii) 50 % of _____ = _____

iii) _____ % of _____ = _____ iv) _____ % of _____ = _____

d) Using the one hundred chart below circle the number that is _____ more. Continue the pattern of adding _____ more.

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30
31	32	33	34	35	36	37	38	39	40
41	42	43	44	45	46	47	48	49	50
51	52	53	54	55	56	57	58	59	60
61	62	63	64	65	66	67	68	69	70
71	72	73	74	75	76	77	78	79	80
