Daily Social & Workplace Skills CCP5791-4

### Cyber Bullying Experiment

Start a private group or page on a social media site. Invite your teacher as an administrator (someone in charge). Invite your classmates to join.

Give some classmates roles to play as bully and victim. Make up situations for them to play out in your group.

These should touch on:

- Send mean messages or images.
- Post things about someone without his or her permission.
- Pretend to be someone else.
- Leave someone out on purpose.
- Start rumors that are not true.

See how the rest of your classmates reaction these situations. What happens?

- Did some ignore it?
- Did some join in the bullying?
- Did some do anything to stop

As an added activity, show good social media behaviors by policing the page.

- How do you show the group or page?
- How do you show yourself
- How did you react to cyber bullying?

At the end, write a report showing the results. In your report, describe what took place. Explain how your classmates reacted to it. Answer all the questions above. End your report with a sentence explaining what you learned from this experiment.
