Intersectionality: Fighting for Rights, Understanding & Respect on Multiple Fronts

People face discrimination for lots of reasons. It could be because of gender or sexual orientation. It could also be because of race or age. It could be because of education or disability. Some people have more **privilege** than others. It's important to understand how this can affect your life.

Key Term: Privilege is when a certain group has advantages that they didn't earn. These are given for free because of how they were born. It could also have to do with the life they were born into. Male and white privilege are examples.

Some people can face **inequality** for more than one reason. A woman might deal with **sexism** because of her gender. A Black person may face **racism** because of the colour of their skin. A Black woman might deal with both of those things. It's important to think about how a person's life is affected by their identities. **Intersectionality** points out that some people face inequality for more than one reason. Think of it as a crossroads. This is where our different identities connect to make us who we are!

Key Term: When someone is discriminated against because of their gender. This is called sexism. Some people are discriminated against because of their race. This is called racism.

Intersectionality: Fighting for Rights, Understanding & Respect on Multiple Fronts

4. Describe a time when you experienced or witnessed inequality because of a part of your or their identity. (This can be from a movie or TV show if you can't think of any real-life situations.)

5. Marsha P. Johnson is someone who experienced intersectional discrimination. What parts of her identity do you think caused her to experience this?

Graphic Organizer

6. Use the graphic organizer on page 12 to map out your own personal privilege.

Think of each part of your identity as a road. The point where all these roads cross is called an intersection. This is where your identities meet and impact your life experiences!

Your life will be different than others' because of these roads. These roads can also decide your privilege. It is important to know what advantages you have that others might not.

Fill in each missing piece of the graphic organizer. Then, reflect on how your identities affect your life. You might not be comfortable filling this out about you. That's okay. You can choose a character from a show or book that you know well.

Remember! Having privilege shouldn't cause shame. It doesn't mean you haven't worked hard. It doesn't mean you haven't experienced hard times. It just means that the hard times you've faced haven't been because of the parts of your identity.
