Reading Passage

📖 After several hours in the stomach, food is only partly digested. Next, it moves into the small intestine. The small intestine gets its name because it is a tube that is small around (small in diameter). But the small intestine is also very long. It is close to twenty-five feet long! It fits in our body because it is very tightly coiled (like a curled up snake that is sleeping).

Comprehension Questions

📖 Complete the paragraph with words from the list. Type your answers into the paragraph below.

- liver enzymes nutrients

The small intestine is where most of the are taken from our food.

are special chemicals from the pancreas and the .

They help us digest our food.
