

Vocabulary

provides a wide variety of activities designed to enrich and reinforce vocabulary skills taught at the early grade levels. Vocabulary words used in math, science, and social studies are introduced in varied formats such as crossword puzzles, picture identification, word scrambles, word searches, and matching. Learning to identify words and comprehend their meanings provides the basis for successful reading—whether for information or pleasure.

Each activity features a theme (holidays, animals, days and months, numbers, colors) to promote interest in and retention of the new vocabulary. The pages are presented in a suggested order, but may be used in any order that best meets a child's needs. Exercises are designed so a child can work with a minimum of supervision in a classroom or at home. Answers are included in a four-page leaflet in the middle of the book. This leaflet can be easily removed.

Table of Contents

Color Fun!

Use the code in the box and write the name of each color on the line below the crayon. Color each crayon the correct color.

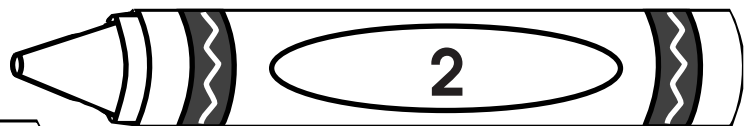

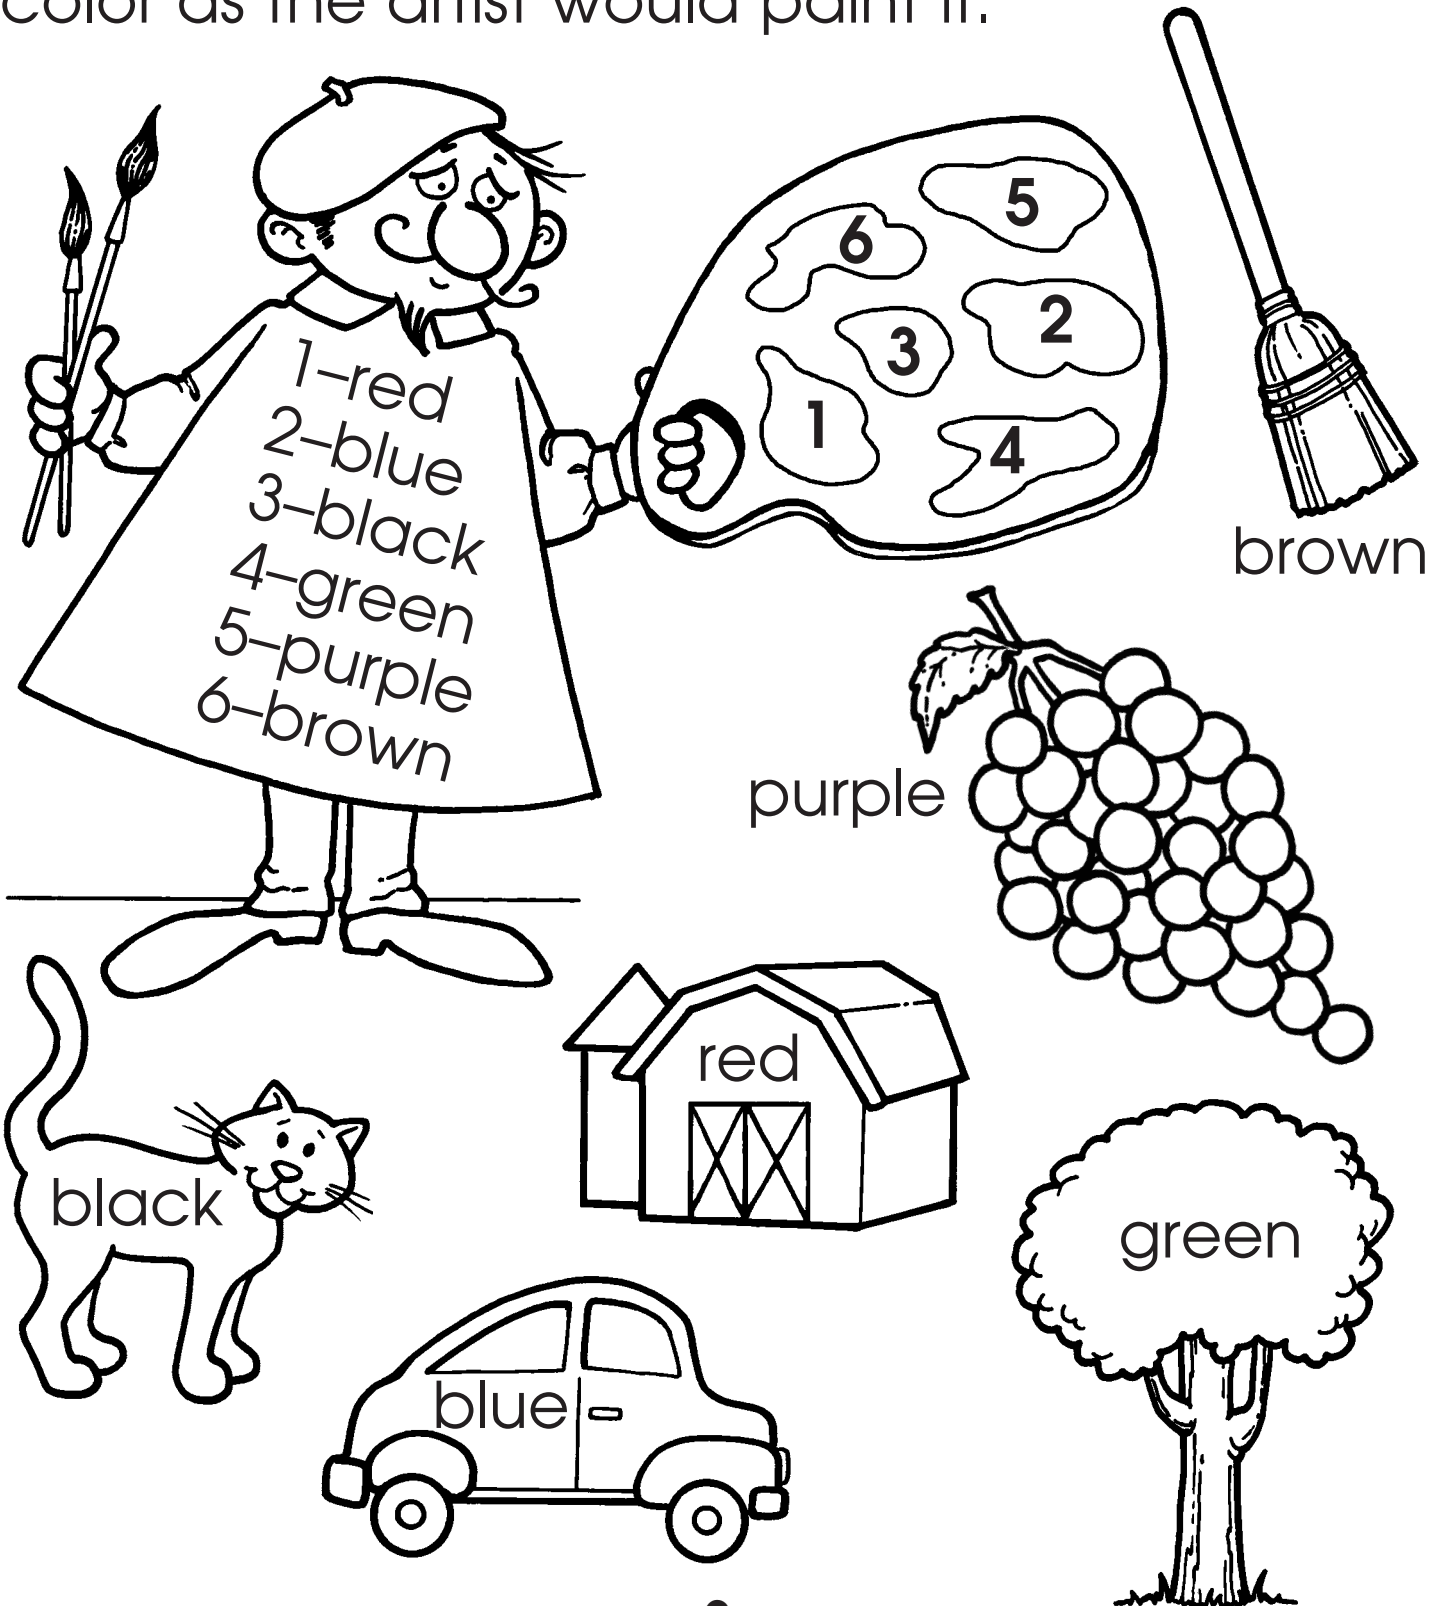

Show Your Colors!

Use the code below to color the artist's paints. Then color each picture the same color as the artist would paint it.

Number Magic

Pull each number word out of the hat.
Write it on the correct rabbit.

1 10 7 4

3 8

5 2 9 6

one ten
five four
two nine
six eight
seven three
