NOTE TO PARENTS

Although this book has been specifically designed to be used by classroom teachers for teaching addition facts, the materials are extremely helpful when used by parents and children at home.

If you have purchased this book to use at home with your child, I recommend that all of the fill-in-the-blank pages be inserted into vinyl page protectors and worked with a dry-erase overhead transparency marker. The page protectors can be washed and the page can be reused. Put all the page protectors and worksheets into a vinyl, two-pocket binder. The pen, flash cards and other materials can be kept in the binder pockets, thus creating a handy, portable math kit.

I think you will find that these methods work extremely well both at home and in the classroom. It's a book you can count on!

DEDICATION

I would like to dedicate this book to my husband, Joe; our children, Gretchen, Troy, Adam, Sarah, Robert, Nick and Jenny; and my parents, Vincent and Cleora Vestring.

ACKNOWLEDGEMENTS

I appreciate the support given to me by Cindy Goodwin, Kay Suchan, Bonnie Sheahon and Becky Low. A special thanks to Wesley Learned for his suggestions for ways to improve my format.

 When they're sick of gob - bles, I'm the guil - ty one.

If they are al - ler - gic give them back to me a - gain!
 If I see them com - ing, I — think that I will run!
