## Introduction

Celebrate the many wonders of our planet as you observe Earth Day on April 22<sup>nd</sup>. As you talk about this attractive bulletin board and complete the activities on the pages that follow, your students will learn to appreciate

the Earth. They will also learn the importance of recycling and picking up litter. Link up with students' families in a parent letter, and practice math and language skills as you attempt to have a Happy Earth Day!

Happy

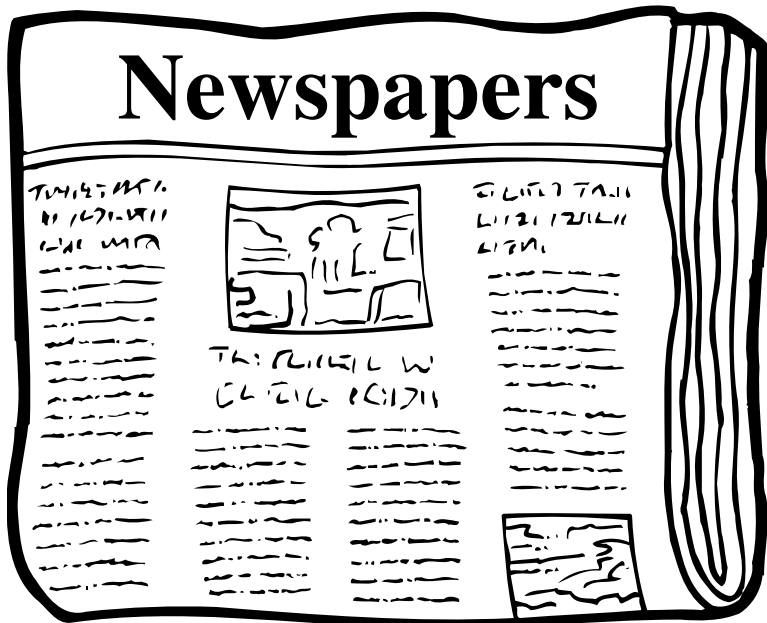

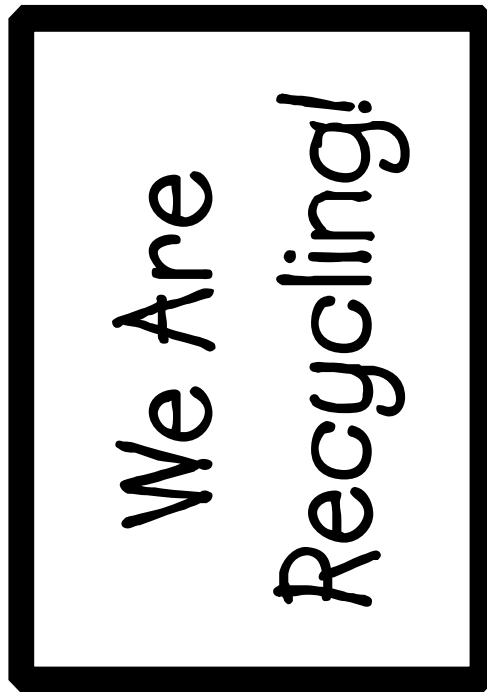

"Earth" day

to you!

# Recycling Display

Make one copy of these shapes on colored paper. Cut out the shapes and post them in a display area. Make many more white copies for students to use. Each time a student recycles one of the featured items at home, he or she may cut out one of the corresponding shapes,

write his or her name on the back and add it to the display. Do this for two to three weeks so everyone has a chance to participate. Then hand out copies of the graph on the next page and follow the directions.

Name \_\_\_\_\_

# Recycling Graph

Count the number of recycled shapes that have been added to your classroom display.  
Complete the bar graph to show how many things you and your classmates recycled.
