UNIT EVALUATION

REFERENCES

Insects

1. Look at books with pictures of insects in them. Choose one insect and draw a picture of it in the box.

2. Make sure the insect you drew has six legs. Label the head, thorax, and abdomen.

3. When do we see insects?

4. How many legs do insects have?

5. What are an insect's "feelers" called?

Bees

1. Look at books with pictures of bees in them. Draw a picture of a bee in the box. Colour the bee.

2. Label the bee's head, thorax, and abdomen.

3. Where do bees live?

4. What does the worker bee do?

5. Why are bees helpful insects?

WEEK TWO – DAY FOUR

Dear Parents: This worksheet reviews the sounds and concepts your child learned at school today. Take five to ten minutes to complete the activities on this page with your child. The activities reinforce today's lessons. Depending on your child's present ability, you may want to do these activities orally or you may want your child to do some or all of the writing. Encourage your child to do as much writing as he/she is able to do on his/her own.

Think of three words that have the 'ing' sound in 'flying'.

1. _____
2. _____
3. _____

Print five words that rhyme with 'jumping'.

1. _____
2. _____
3. _____
4. _____
5. _____

Fill in the blanks with the correct word.

harmful outdoors people diseases repellent

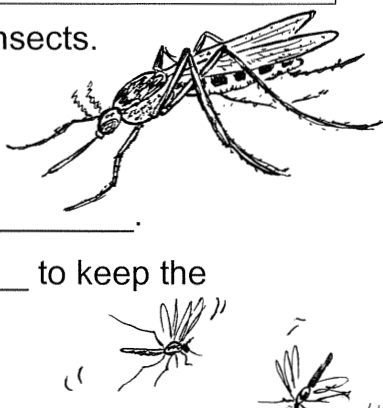

1. Mosquitoes are _____ insects.

2. They bite _____.

3. They carry _____.

4. Mosquitoes bother people _____.

5. People wear insect _____ to keep the mosquitoes away.

Dragonfly Fact Card

A dragonfly is an insect with six legs and two sets of wings. It has a long, thin body and big eyes.

Dragonflies are good, fast flyers. They can fly straight up in the air and can twist and turn while they are flying.

Dragonflies are our friends. They are helpful insects. They eat mosquitoes and other harmful insects. Eating mosquitoes is helpful to people because mosquitoes bite people and carry diseases.

Grasshopper Fact Card

A grasshopper is an insect that moves by jumping. It has very strong legs and can jump very high.

There are many kinds and colours of grasshoppers.

A grasshopper makes noise by rubbing its legs and wings together. A grasshopper has five eyes on its head.

Grasshoppers are harmful insects. They are harmful insects because they eat the plants that people need.

INDIVIDUAL WORD CARDS

insect	head
thorax	abdomen
ant	butterfly
ladybug	bee
antennae	feelers
