

# Let's Make a Book\* - For all Seasons

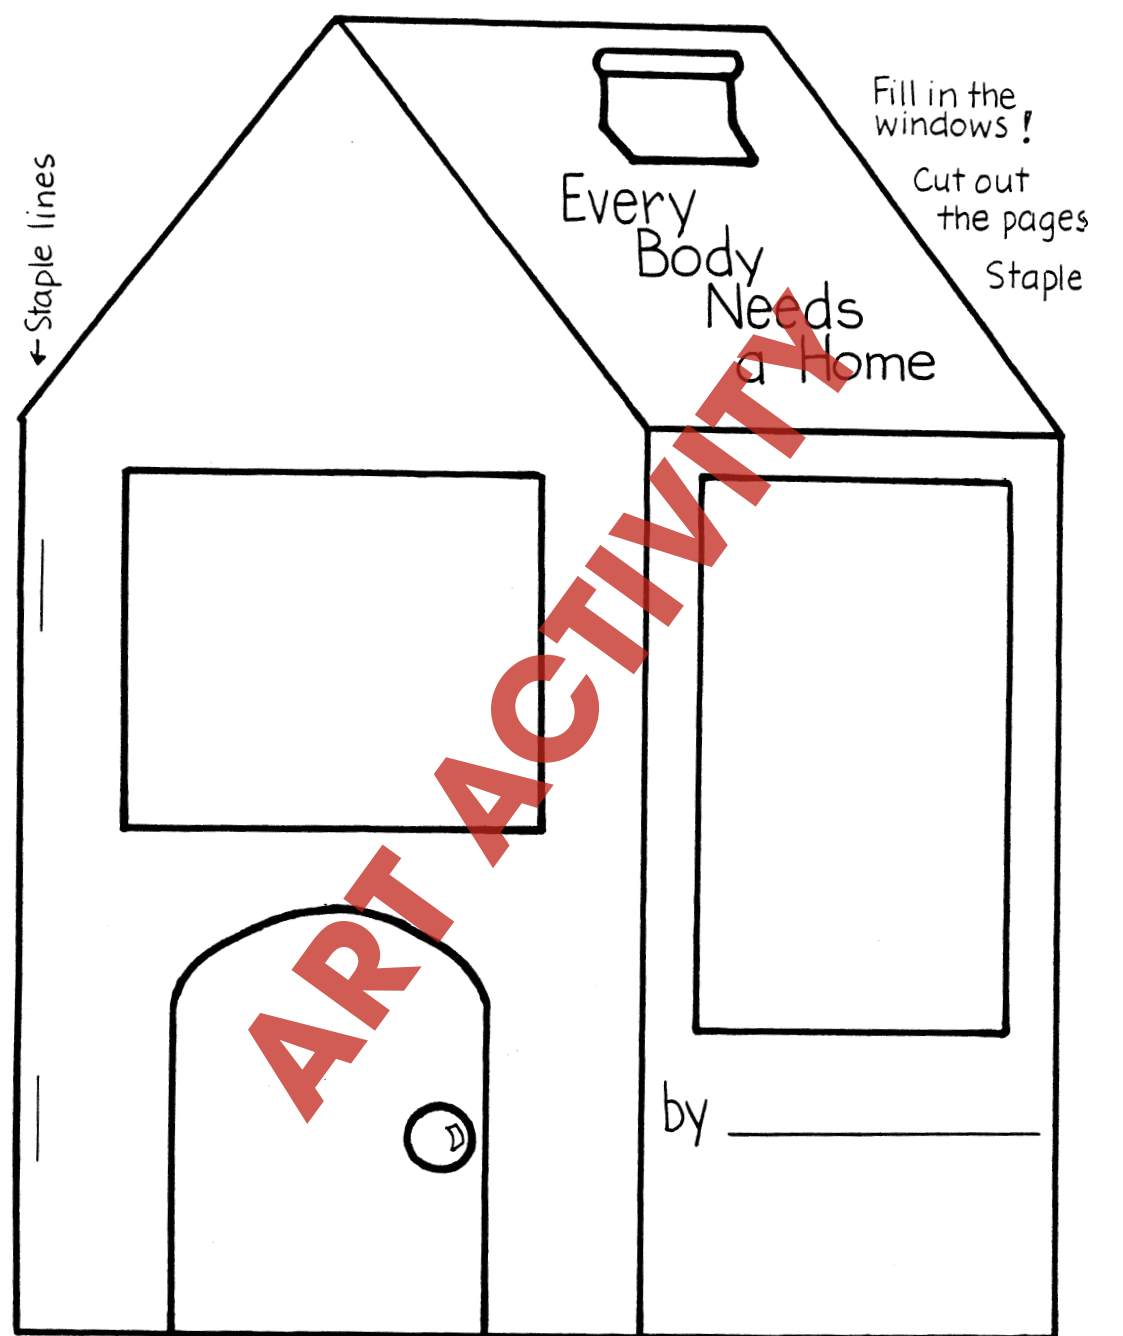

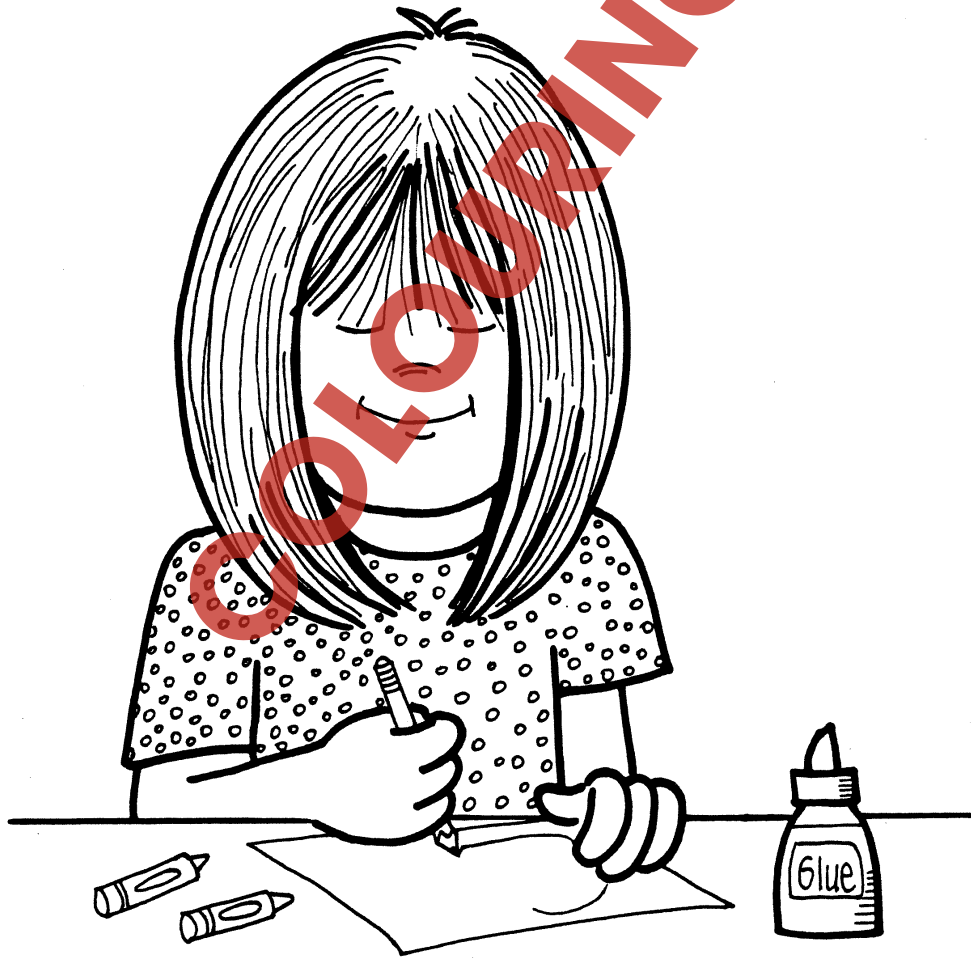

The ultimate goal of a creative writing program is to develop independent authorship. These bookmaking patterns can be used as a stepping stone. The story frames encourage a creative written and illustrated response.

Store the patterns in file folders at your Writing Centre or make a special Bookmaking Centre. Equip with patterns, glue, scissors, plain and lined paper and a stapler. Include library pockets and cards and set up your own class library. Use the centre identification page.

Photocopy pattern pages onto coloured bond paper and the cover onto construction paper.

Have fun being authors and illustrators!
