The Hat Trick Story

In nineteen-thirty-four
 A man named Sammy Taft
 Was looking for a better way
 To sell more hats.
 He owned a local hat store
 And business, it was rough
 No hats were being sold
 Because the times were so tough.

Now Sammy's favourite team
 Was the Toronto Maple Leafs
 And when he got his great idea
 He jumped with disbelief.
 A player on the ice
 Scoring three goals in one game
 Would win a hat from Sammy's store
 And things would never be the same.

The "Hat Trick" became quite famous
 And Sammy's hats were in demand
 The word had spread across the league
 And all throughout the land.
 So now you know the story
 And the next time someone asks
 Tell about the "Hat Trick"
 And a man named Sammy Taft.

Note:
 It is interesting to note that the first player
 to get a hat-trick was not a Maple Leaf, but
 a rookie from the visiting Chicago
 Blackhawks named Alex Kolida.
