Introduction from the Author

This unit is the first of my rebus writing attempts. Since many more, while this first edition continues to be popular.

Rebus stories give emerging readers the encouragement and need. The picture offers a word clue, while establishing and reinforcing the idea that words make sentences that mean.

Duplicate the stories in this unit, one for each student. With Kindergarten, you may consider these stories as a partner or buddy.

The stories tell about the senses, things that are big and changing of the seasons. The creative activities encourage students to express their ideas through art.

I hope you enjoy Rockin' Rebuses.

"More Rockin' Rebuses"
for Kindergarten
to Grade Two

Here's 6 **all new** rebus stories. Use them as independent or group learning activities.

Photocopy and give each child a book to read and create in.

If your photocopy budget will not allow this, make 1 book for the class. Colour the rebus illustrations and the cover, laminate and bind.

Insert a paper clip on each page.

Independently, or as a group, go through the story.

The children can draw their answers on 14x18 cm paper, widthwise.

Each child can take turns reading the book, adding his or her own illustrations.

Children love to read rebus stories.

The illustrations give them positive identification of words in the story.

The creative activities have

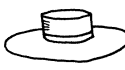

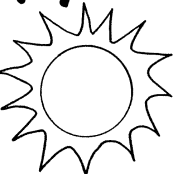

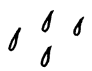

designed to stimulate creative and expression.
