

Regions - Guess the Region Game

This activity is designed to help you develop your skills with identifying regions, and your ability to use relative location. Asia has many regions, and each can be described in many ways. Have fun creating a geography game!

You Will Need:

- Twelve large recipe cards
- Physical map of Asia
- Pencil and paper

Number of Players:

- Two, three or four

Part A

How to Make Your Game

1. Write the names of these **twelve** Asian regions, one name on each card.

Ural Mountains

Malabar Coast

North China Plain

West Siberian Plain

Arabian Desert

Himalayas mountain range

Mekong Delta

Plateau of Tibet

Gobi Desert

Kashmir

Caucasus

Anatolia

2. On the same side as the name, describe that region's relative location, using such things as other countries, large bodies of water, etc., and the physical features found in that region. You may also want to include the languages spoken there.

Part B

How to Play the Game

1. Player A reads aloud a region's relative location and physical features without saying its name.
2. Player B listens to the descriptions, and using the map for help, tries to name the region. Player B can have the description read to him or her only twice.
3. If Player B guesses the correct region, **score 10 points**.
4. If Player B cannot guess the correct region, **lose 5 points**.
5. Player B now chooses a card and reads it aloud. Follow Steps One to Four.
6. Continue until all of the cards have been read.
7. The player with the most points becomes a "Region Expert".
