Savings tip

Plan your meals based on what's on sale.

Avoid impulse buying. This is when you buy something without thinking it over. Don't grocery shop on an empty stomach. You'll buy food without thinking first.

Look at the price and the quality. You have a good buy if the price is within your budget and the quality is worth the price.

Just because the price is good doesn't mean the quality is. Always look at the quality, then price.
