

Build It!

MAKE A NEBULA

You need:

- 1 casserole dish (or other clear dish of a similar size)
- 1 pipette
- 1 sheet black construction paper
- 1 bottle clear nail polish
- newspaper
- water

Steps

- STEP ONE:** Fill the dish halfway with water and soak the paper in it. Make sure the paper is at the bottom of the dish.
- STEP TWO:** Fill the pipette with polish and place one drop in the center of the dish. Wait for the nebula to form.
- STEP THREE:** When it forms, wait about 5 seconds for it to harden on the surface of the water.
- STEP FOUR:** Lift the paper to catch the nebula and wait for it to dry on the paper.
- STEP FIVE:** Examine the nebula that formed.
