

MAJOR PROJECT #2 – SCHOOL WINTER OLYMPICS

Students work as a class to plan and hold a school Winter Olympic Games. Students divide into committees to look after different aspects of the school Olympics. Have students determine what the different committees will be and what each committee will be responsible for. Possible committees may include:

1. IOC Committee – responsible for overseeing the entire plans of the school Olympics.
2. Events Committee – responsible for planning the individual events of the school Olympics.
3. Ceremonies Committee – responsible for planning the opening and closing ceremonies.
4. Awards Committee – responsible for determining, designing, and making the awards or medals for the school Olympics.
5. Canteen Committee – responsible for planning the canteen, ordering the supplies, and arranging for the manpower.
6. Facilities Committee – responsible for ensuring the facilities and equipment are available for the sporting events.
